

GK-650T Fully Automatic High Speed Window Patching Machine

Introduction :

GK-650 Window Patching Machine is applied for gluing and filming of box windows, paper bottom suction feeding, correctly taper, auto glue, paste and roll to complete the whole processes, with auto accounting. It is the ideal equipment for window patching for various boxes, easy to adjust with high efficiency.

Feeding section adopts bottom paper extraction through extraction belt instead of clutch control, to ensure continuous feeding non-stop. Intermittent belt

transmission adopts server control, transmission of different size can be adjusted according to paper length. Belts is equipped with gear and rack, it can be adjusted left and right.

Offset adopts flexible plate, plate can be carved according to the product needs. The roller for plate installing is provided with baseline, and the installation has to be accurate, convenient and fast, and the position of offset can be adjusted left and right at random, and front and rear position is adjusted by anteroposterior adjuster, offer can be adjust all sides.

Filming section adopts server speeder, adjust by direct type in through PC, ensuring length adjustment non-stop. Film length is cut autonomic by knife roller; Film zigzag line will be auto pressed, auto cut film opening, film is sucked

and paste to the box through air-suction roller, film can be adjusted all side

Tech Parameter:

Model	650T
Work Speed	8000-20000pcs/h
Valid Paper Size	150x150-650x630mm
Valid Window Size	60x30-300x200mm
Valid Paper Weight	200-1000g/m ²
Film Thickness	0.05-0.20mm
Main Motor Power	2.2kw
Pump Power	2.2kw
Weight	2100kg
Dimension(L x W x H)	4500*1300*1500

Sketch of Procedures:

Configuration :

a) Intermediate Relay	Schneider(France)
b) Breaker	Schneider(France)
c) Photoelectric Switch	BaiDeLi
d) Bearing(Main Parts)	HaErBin
e) Frequency Converter	Rexroth
f) Servo Motor/Driver	Teco Taiwan
g) Three Phase Motor	ZhongLong
h) Rubber Roller Motor	V.T.V
i) PLC	FATEK Taiwan
j) Switched-mode power supply	Meanwell
k) Intermediate Relay	Chint
