Product Name

GK-G Auto High-Speed Bottom Lock Gluing Folding Machine

Product Description

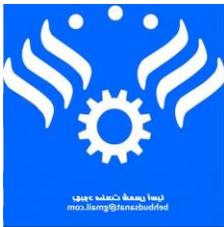

Name	GK-G auto high-speed bottom lock gluing folding machine		
model	GK-780G	GK-1050G	GK-1200G
Paper Material	Cardboard 250-700g A/B/EA/B/ECorrugated		
Max. Liner speed	Max. 220 meter/minute		
Feeding way	Automatically and continuously feeding		
Way of folding	Fold 1 and fold 3 are 180°		
Glue Material	Water-base cold glue		
Power Supply	3P380V50HZ		
Total power	7kw	7kw	9kw
Weight	7T	8T	8.5T
Over dimension	16x1.5x1.45	16x1.75x1.45	16x1.9x1.45

Specification

GK-780/1050/1200G is two folds equipment (applicable for cardboard and corrugated paper)

Model	GK-780G	GK-1050G	GK-1200G
A	180-780	250-1050	280-1200
B	80-500	80-700	80-700
H	25-100	25-100	25-100

Carton type and size			
Model	GK-780G	GK-1050G	GK-1200G
A	120-780	250-1050	250-1200
B	50-700	80-700	80-700

Two-size gluing box type and size:			
Model	GK-780G	GK-1050G	GK-1200G
A	100-650	250-900	250-1050
B	80-700	100-700	100-700
H	10-50	10-50	10-50

Feature introduction

the machine consists of feeding, paper correction, Line-pressing, releasing and collecting sections, press and so on.

Feeding section:

auto feed correctly and continuously, internal of feeding is adjusted by continuously variable speeder; independent high-speed feeding bell can be easily adjusted; independent vibrating motor can improve feeding greatly; feeding blade and baffle on the left and right can be adjusted upper and down to shorten adjusting and carton changing time.

Paper Correction:

Paper Correction: Equipped with auto-correction device to correct the obliquity and ensure the correct feeding

Folding:

The folding is equipped with the driving belt, folding belts have corrective function, extension work, make the box forming more stable.

Releasing and collecting sections:

Adjust the pressure easily and reliably to ensure the gluing quality; Equipped with pneumatic counting device which makes the counting conveniently. The press is equipped with independent speeder. The operator can set the collecting speed according to the packing speed.

Press: Equipped with one-touch pneumatic pressure adjustment, easy operation.

Press has two functions:

- 1/ waiting, when feeding is paused, press will auto enter into waiting state**
- 2/ travel switch, pause the machine in case of wrong collecting**

Main transmission adapt synchronous belt for power transmission.

Motor adapt variable-frequency speeder in a large range.

Product introduction:

Series G folding gluing machine is dual purpose machine, adopt synchronous belt transmission and electronic continuously variable speeder , domestic standard electronic components, feeding section adopt mechanic continuously variable, stable and easy to control and operate. It is especially designed for various cardboards, corrugated-paper packaging, adapts correction function, and make corrugated boxes perfectly meet the requirements of auto packaging. (in case of any special function required, we can design according to the customer's intension.).
